Automated Hours of Service

The new D.O.T. Mandates require the use of EOBR (Electronic On-Board Recording) Devices – more specifically GPS Units to assist in tracking a driver and producing Automated Driver Logs.

Our Applications not only produce electronic hour of service logs, they also monitor new and existing compliance rules including the following:

- All DOT Compliance Rule Sets.
- State Variance Rule Sets / Exceptions
- Restart rules
- New sleeper berth provisions
- Rest break rules
- Country specific rule sets
- And much more...

e-Track Mobile™ Now Available on Google Play Store

Transportation Industry Segments Supported By Automated Hours of Service Application

Long Haul

Short Haul

Limo / Motor Coach

Drilling / Oil Field

Agriculture

Construction

Hazardous Materials

Hazardous Waste

Automated Hours of Service
